

A Phenomenal Selling of Men's and Young Men's Suits and Overcoats

**163 One Hundred and Sixty-three Suits and
157 One Hundred and Fifty-seven Overcoats Sold
In Ten Days. That Breaks All Previous Records of any Ten Days' Business We Ever Did**

But that's only another evidence to show that people know where to go to get greater values, higher class merchandise, better tailored clothing and the prices no more than they would pay elsewhere for the ordinary kind.

**Our Display of Men's and Young Men's Suits and Overcoats at
\$15 \$16.50 \$18 \$20 \$22 \$25**

In all the new models, weaves and patterns is by far the greatest values that have ever been shown in this vicinity.

Our clothes are made for men who find pleasure and satisfaction in dressing as well as they possibly can. Men who appreciate what good clothes mean to them in business and social life.

Good Clothes, Nothing but Good Clothes.

GUSTAFSON & HAYES

NEW RECORD SET BY ROCK ISLAND

Annual Report of Railroad
Shows Largest Gross Business in History.

MAKES UP LAST DEFICIT

Year's Earnings After Deduction
Equal to 3.58 Per Cent—Total
Revenue \$68,487,473.

For the fiscal year ended June 30,
1911, the Chicago, Rock Island & Pacific
railway company has the largest

year's gross business in its history.
The total revenues from operation
were \$68,487,473, against \$66,220,578
the previous year, an increase of \$2,
266,895, or 3.42 per cent.

The Chicago, Rock Island & Pacific
railway company is the producing company
of the Moore properties. The Chicago,
Rock Island & Pacific railway company
receives the income from the
railway company. All the stock of the
railway company, with the exception
of directors' shares, is owned by the
Rock Island company of New Jersey.
This latter holding company is the one
whose stock is listed on the New
York exchange and in which there are
public dealings. This company received
its dividends through the railroad
company. The Rock Island company,
or New Jersey corporation, has outstanding
\$49,908,150 preferred stock and
\$90,822,192 common stock.

TOTAL EARNINGS 4.22 PER CENT.
Last year's earnings of the railway
company applicable to the preferred
stock of the Rock Island company
were equal to 3.58 per cent. This was
after providing for a deficit the previous
year of \$209,470 and after providing
for \$2,983 discount on bonds.
The original earnings, however, from
the producing company were equal to
4.22 per cent on the Rock Island preferred,
taking into consideration all the earnings
of the railway applicable to dividends.
But the railway company did not pay out
in dividends all the money applicable thereto,
but carried a surplus of \$1,511,795. The
money actually received by the Rock
Island company for the year was but
\$90,302 in excess of charges including

the deficit of \$209,470 mentioned.

The report of the railway company
as submitted by President H. U.
Mudge shows a considerable increase
in efficiency in the transportation department
over the previous year. The
engine mileage in both the freight and
passenger service showed large decreases,
though the revenue increased.

TAX ACCOUNT SHOWS DECREASE.
The company expended during the
year \$996,237 for construction of additional
and improved terminal facilities.
The company also advanced in addition
to the amount mentioned \$78,072 for
Houston, Texas, terminals. The report
states that for the first time in many
years the tax account showed a decrease.
This amounted to \$108,049, or 5.54 per cent.
The decrease was due largely to overaccruals
during the preceding year.

HANDSOME STATION PLANNED.
Chicago, Oct. 24.—A new plan for
the proposed Chicago & Western Indiana
railroad terminal, to replace the

old Dearborn station, is now under
consideration by the railroads. If
adopted, it will give Chicago the most
complete development of terminal facilities
in the country. Plans representing
years of study and painstaking investigation
by railroad executives and engineering
experts have been worked out with the
most elaborate detail and submitted to the
railroads involved in the form of a report,
which has been printed and confidentially
circulated among a chosen few of those
most affected by the proposed scheme.
As mapped out in the report, the scheme
is a modification to meet present
conditions of the old Delano plan
of a series of passenger terminals on
Twelfth street. It provides accommodations
for 14 railroads, including not only
the seven roads now using the
Dearborn station of the Western Indiana,
but the five roads using the La
Salle street terminal and one now using
the Illinois Central terminal.

The railroads for which provision
is made are: Western Indiana Suburban,
Santa Fe, Erie, Wabash, Grand
Trunk, Monon, Cressapeake & Ohio,
Rock Island, Lake Shore, Chicago &
Eastern Illinois, Nickel Plate, Chicago,
Indiana & Southern, "Soer" line. Estimates
have placed the cost of carrying out the
entire project at \$38,000,000.

Chamberlain's Cough Remedy has
become famous for its cures of coughs,
colds, croup and influenza. Try it
when in need. It contains no harmful
substance and always gives prompt relief.
Sold by all druggists.

AT AUGUSTANA

Before a full house the faculty of
the Augustana conservatory gave its
first recital of the term in the college
auditorium last night. The high quality
of the work as a whole spoke well
for the local school of music. It was
the first official appearance of Albert
Anker, the new head of the violin department
of the Lutheran institution, and he showed
himself to be a master of his instrument.
After his first number, Sonata No. 1 (Handel), he was

HAVE BEAUTIFUL HAIR; DRY SHAMPOO METHOD.

The beauty editors of many of the
prominent ladies' journals are advocating
the use of the "dry shampoo" in preference
to any and all methods for beautifying
the hair. It is claimed that this method
is superior to washing the hair and creates a
clean, lustrous, wavy head of hair in a short
time. No matter how dull and lifeless
the hair, the following dry shampoo will
soon work wonders if regularly used:
With six ounces of powdered orris root,
mix two ounces of antiseptic vilane powder.
Keep in a tight jar or box and at night apply
a tablespoonful, distributing it through
the hair with the fingers. In the morning
use comb and brush to remove and all
excess oil, dirt, dandruff, etc., will be removed
with it. Men and women both use it with
the utmost satisfaction. Obtain the ingredients
of any well stocked drugist.

so vigorously applauded that he was
forced to respond with an encore. Although
he plays with a great deal of feeling and
expression, that fact does not mar his
wonderful technique. Professor Peter
Johnson again demonstrated his superiority
at the piano and organ. With her three
Scandinavian songs, Mrs. Edla Lund especially
pleased her audience, while Miss Lillie
Cervin played the organ as of old. Miss
Iva Pearce won the good will of her
hearers with three short selections and
was forced to add a fourth.

SUHLER ESTATE IS FINALLY CLOSED UP

Creditors of Former Rock Island
House Lessee Get 4 1/2 Cents
on the Dollar.

Final dividends have been paid to
the creditors of the estate of A. M.
Suhler, former manager of the Rock
Island house, and the estate has been
closed. The creditors received 4 1/2 per
cent on the dollar. B. F. Schriver represented
Mr. Suhler and several of the creditors;
Albert Huber represented the remainder
of the creditors, and Harry M. McCrackin
represented Richard Pierce, trustee. The
assets were \$1,100. One of the creditors
received 23 cents as his portion of the estate.
He figured that he had 46 cents coming, so
refused to settle for any less.

Try to Dynamite Train.
Kansas City, Mo., Oct. 24.—A tele-

gram to the local police asking them
to watch for three suspected men
brought the first information here that
an attempt had been made to dynamite
Rock Island passenger train, No. 35,
from St. Louis to Denver, at Eldon,
Mo., 170 miles east of here. The train
was damaged but the train had passed
over.

How to Absorb an Old Complexion

(From Popular Monthly.)
A girl signing herself "Discouraged,"
writes she has "tried everything" for her
"coarse, horrid, muddy complexion" and
asks "Is there no really effective remedy?"
Doctoring your complexion with stuff
that comes out of jars and bottles is
liable to make it more unsightly. The
only sure way to rid yourself of a bad
complexion is to remove it—take off the
offensive skin. Ordinary mercerized wax,
securable at your druggist's, will do this.
Apply at night, as you would cold cream;
wash off in the morning. The wax
absorbs the dead and dying outer skin,
revealing the clear, soft, healthy and
beautiful skin underneath. Naturally all
surface defects go, too, as pimples, blotches,
spots, moth patches, freckles and
blackheads. The treatment causes no
discomfort. No one can tell you are
using it, the old skin coming off so
gradually.
